

HYDRANT AND MAIN FLUSHING SPRING 2017

The Evansville Water & Light will be flushing water mains starting on Monday April 24 through Friday May 5. Flushing is done to check hydrants and remove any sediments from the water mains. You may experience some dark water when we flush the mains in your neighborhood. To prevent this, it is best not to run water while we are flushing in your area. If you do experience this turn on your cold water tap until it runs clear. Thank You
